PROFILE

Java Backend Developer with hands-on experience in building scalable applications using **Core Java, JDBC, and REST APIs**. Currently expanding expertise in **Spring Boot, microservices architecture, and database optimization**. Strong foundation in backend development, system design, and performance tuning with real-world production experience. Proven ability to deliver reliable, production-grade applications and solve complex backend problems.

SKILLS

Backend — Java, SpringBoot, SpringMVC, JDBC, JPA/Hibernate, Maven/Gradle, REST APIs

Database — MySQL, MongoDB, Microsoft SQL Server, PostgreSQL, SQLite, Firebase

Cloud & Devops — Microsoft Azure, CI/CD, Azure DevOps

Frontend — ReactJS, Typescript, MaterialUI, HTML, CSS, Bootstrap, Javascript

Testing & Tools — JUnit, Postman, IntelliJ IDEA, Lombok, VS Code, Git, GitHub, Swagger

PROFESSIONAL EXPERIENCE

Dr. D. Y. Patil School of Management & Research

Software Developer

06/2025 – present
Pune, Maharashtra,
India

- Engineered and maintained 10+ ERP/LMS backend modules using **scalable architecture** for real-time academic workflows.
- Integrated **RESTful APIs** and **optimized SQL queries**, improving data retrieval performance by 80%.
- Designed **modular service-layer architecture** using **OOP** principles, aligning with scalable backend and Spring Boot development practices.
- Deployed applications on **Azure** using **CI/CD pipelines**, ensuring seamless multi-environment releases and reliable deployment workflows.
- Improved **system uptime by 40%** through proactive monitoring, debugging, and efficient resolution of production issues

CuteCode Street Style Store LLP

Software Developer Intern

09/2024 – 01/2025
Delhi, India

- Implemented **service-oriented backend patterns** with batching and retry logic, aligning with scalable Spring Boot **microservice** design principles.
- Improved **logging** accuracy by 35%, enabling reliable monitoring, debugging, and enhanced backend system observability.
- Optimized **API** workflows, reducing email delivery latency by 25% through efficient request handling and improved **system design**.
- Automated** cron-based email triggering and implemented suppression handling, ensuring compliance, data integrity, and **scalable backend processing**.

NielsenIQ Pvt. Ltd.

Intern EIT-Technical Engineer

01/2023 – 05/2023
Pune, Maharashtra,
India

- Resolved **200+ production support tickets** with a **95% resolution rate**, consistently meeting strict SLA timelines.
- Diagnosed and fixed backend and system-level issues, contributing to a **40% reduction in downtime**.
- Managed an average of **150+ tickets per month** while maintaining a **4.8/5 customer satisfaction score**.
- Collaborated with senior engineers to troubleshoot and resolve **complex issues within 24 hours**.

EDUCATION

Master of Computer Applications

Dr. D. Y. Patil Institute of Management & Research
9.36 GPA

11/2021 – 09/2023
Pune, Maharashtra

Bachelor of Computer Applications

Lachoo Memorial College of Science & Technology
90.29% (Gold Medalist)

07/2018 – 09/2021
Jodhpur, Rajasthan

HSC

Central Academy
81.4%

04/2017 – 03/2018
Jodhpur, Rajasthan

SSC

Central Academy
10 CGPA

04/2014 – 03/2015
Jodhpur, Rajasthan

PROJECTS

Employee Management System [↗](#)

RESTful API built with Spring Boot for managing employee records

Tech Stack: Java 17, Spring Boot, Spring Web, Spring Data JPA + Hibernate, MySQL, Maven, Postman (testing)

- Built a backend application using Spring Boot implementing REST APIs for CRUD operations with layered architecture (Controller, Service, Repository).
- Integrated MySQL using Spring Data JPA for efficient data persistence.
- Implemented validation, exception handling, and modular architecture for scalability.

04/2026 – 04/2026

ReelX [↗](#)

AI-Powered Movie Recommendation System

Tech Stack: React.js, Flask, scikit-learn, TMDB API, Tailwind CSS

- Developed a Flask-based backend service to generate content-based movie recommendations using cosine similarity.
- Integrated TMDB external APIs to fetch real-time movie metadata for 5,000+ titles.
- Optimized API responses to support low-latency, real-time recommendations.

02/2025 – 04/2025

ShopBazaar [↗](#)

E-Commerce Web Application

Tech Stack: MERN

- Designed backend APIs for authentication, product management, and order processing.
- Implemented JWT-based authentication and authorization.
- Integrated payment gateway and admin backend workflows.

01/2024 – 03/2024

CERTIFICATES

J.P. Morgan Software Engineering Virtual Experience on Forage [↗](#)

Deloitte Australia Technology Job Simulation on Forage - July 2025 [↗](#)

Hackerrank [↗](#) — 4 star Java | 5 star Python | 4 star SQL

FreeCodeCamp — Back End Development & APIs [↗](#)
